

## **Impact fees**

June 18, 2007 - 10:09AM

Bonifay has lower impact fees for new construction within city limits thanks to an ordinance amendment passed by the City Council last week.

Ordinance 350, known as the Regional Water and Sewer System Impact Fee, was amended to reduce all fees by 50 percent.

At a previous meeting, council members assured the public that anyone who has paid impact fees at the higher rate will receive a refund. Fees now are set at \$1,800 per equivalent residential unit for sewer and \$562.50 per equivalent residential unit for water.
