

## City considers impact fee hike

Wednesday, September 17, 2008

The city will hold a public hearing meeting to amend the city's capital improvement plan component of the city comprehensive plan and the city's impact fees as presented in the revised CIP plan, at 6 p.m. on Sept. 22.

It's expected to be a contentious hearing as developers object to the significant hikes in impact fees being proposed.

The proposed changes will increase the amount collected from impact fees from \$657 to \$6,737 on residential dwellings to cover 10 years of growth. Nonresidential fees would be \$9.42 per square foot.
