Updated: Feb 14, 2008 09:30 AM CST

Officials in Flathead County are talking about instating impact fees in the county to partially fund area improvements.

The impact fees would be collected from septic permits and officials are still in the very early stages of considering starting the impact fees.

Planning consultants met with county representatives on Tuesday to chat about the jail facility and area roads and the Impact Fee Advisory Committee will meet again February 25th.
